

We at E.L. Harley Inc have used the services of Resec Systems for almost a decade. We have always found the products very reliable, innovative, and the service is excellent. When I buy a video system from Resec it is just that, (a system) not just parts and pieces. We are looking forward to the next decade of working with Resec Systems to provide our customers with the newest and best technology available.

Thank you,
Brian Powell
E.L. Harley Inc.
